

# Erjo PTO 9/93C Chip Truck

- **Chipper for wooden residues, stems and whole trees**
- **Bodybuilding, PTO driven with crane and high lift- or side tipping container**
- **Extendable blowpipe with hydraulic fan**
- **Low body building weight gives high load capacity**

Bodybuilding on Volvo or Scania chassi

Infeed opening, (W x H) 930 x 650 mm

Rotor diameter, 900 mm

IQAN Control system, with IQAN GO remote support

# Erjo PTO 9/93C Chip Truck

Excellent Total Cost of ownership.

The ERJO PTO 9/93C CHIP TRUCK is a powerful and flexible truckmounted chipper package for wooden residues, stems and whole trees. Bodybuilding on Volvo or Scania chassi for fast transports. PTO driven, with crane and high lift- or side tipping container and extendable blowpipe with hydraulic fan.

**Robust design for easy cleaning, low maintenance costs and maximum uptime.**

**Base Frame**, for chipper, crane/cab, highlift- or sidetipping container.

**Chipper Housing** is dividable and the inside of the housing is lined with a removable Hardox bottom sweep.

**Chip Blowpipe**, telescopic and turnable (360°) with hydraulic fan, double end flaps adjustable +11°/-56°.

**Built in Chip Screen** provides extra high chip quality. Adjustable chip size 25–40 mm.

**Hydraulic Infeed** unit with heavy duty teeth for aggressive infeed ability. Infeed traction force is more than 5 tonnes.

**Infeed Table** with all surfaces in contact with chipping material are made of Hardox. Hydraulic driven infeed conveyor as an option.

**Crane:** Cranab TZ12/RZ12, 10,5 m with a 0–25 HSP Bio grapple with 4,5 m hydraulic support legs.

**Cab**, XCab with mini/Olsberg joysticks. Hydraulic AC/heat.

**All maneuvering and surveillance** of chipper and truck is done from the crane's cab.

**LED lights and Camera**, on blowpipe for overview in all blowing directions.

**IQAN Control System**, designed by OP Erjo, monitors, and controls all functions with many possibilities for personal operator settings.

**IQAN-GO**, allows troubleshooting from a distance via an app on a smartphone.

**Power Transmission**, performed from the truck's gearbox via a split gear, shafts and power V-belts.

**Cooling System** for hydraulics and other fluids are well protected and accessible for cleaning.

**Hydraulic System** contains components from Parker, Danfoss and Poclairne.

**24V Electrical System**, designed by OP Erjo and has all components well protected in the machine with stainless cabinets.

**Maintenance and Service** is easy due to the robust construction and easy access to all service points.

The 360° blowpipe with speed fan, for longdistances blowing.

## ERJO PTO 9/93C CHIP TRUCK

Chip Container volume	>20 m <sup>3</sup> , depending on truck chassie.
Drive	PTO from truck
Knives	2x2 pcs
Infeed aperture	W 930 mm H 650 mm
Rotor Diameter	900 mm
Chip length	adjustable 20–40 mm

Please contact us for further technical information.

### Options:

- Infeed conveyor table
- Compressor
- Storage cabinets
- Fire protection: Automatic sprinkler system (Dafo) on both chipper and the truck.
